

Personal Details

Name: Rizwan HAMID
Contact: E-mail: hamid_rizwan@hotmail.com
GMC Registration: 5182635

Undergraduate Education

Qualifications MBBS March 1990

Postgraduate Education

Qualifications: FRCS (Edinburgh) November 1998
FRCS (Urol) November 2007
CCT (Urology) June 2009
MD (Res) – UCL, 2013

Awards

Team member for Excellence in Research from NIHR to RNOHT, Stanmore, 2016
Awarded certificate for Top Ten Reviewer for journal Neurourology & Urodynamics, 2016
Certificate for innovative ideas at RNOH, Stanmore, 2014
Markowitz Prize for the best trainee at the Institute of Urology for the year 2007-08
Best poster presentation in a session at EAU annual meeting, Vienna, Mar 2004
Staff Achievement Award for Research & Education, RNOH, Stanmore, 2012

Current Employment

Consultant Urological Surgeon & Honorary Senior Lecturer (UCL)
University College London Hospitals & London Spinal Injuries Centre
Royal National Orthopaedic Hospital, Stanmore, London

Research

MD (Res) University College London
Effects of repeated ejaculations on the quality of sperms following spinal cord injury

A clinical based thesis. My research was to investigate if repeated ejaculations can restore the normal sperm parameters. This can then lead to an improved pregnancy rate. As far as I am aware this is a unique research in this area of spinal cord injury.

Summary of Ongoing Research Activities

Principal Investigator – RNOH, Stanmore

A randomised blind study to evaluate the efficacy of Dysport in management of NDO in SCI & MS patients

Principal Investigator – UCLH, London

Protocol Number- NIHR CSP Ref. 169115

Observational study of BOTOX in Idiopathic Overactive Bladder Patients (GRACE STUDY)

Chief Investigator – UCLH, London

Protocol Number – 09/127

Pilot study to establish laboratory methods for urine NGF and immunohistochemical staining of the TRPV1 in bladder biopsies in patients with IDO & NDO

Co-Investigator – UCLH, London

PROTOCOL NUMBER: 191622-094

A Multicenter, Double-Blind, Randomized, Placebo-Controlled, Parallel-Group Study of the Safety and Efficacy of a Single Treatment with Two Dose Levels of BOTOX®

Co-Investigator – UCLH, London

Pilot study to evaluate the efficacy of artificial urinary sphincter v male sling in a RCT

Member of International Boards

Standardization Steering Committee of ICS

Neuro-Urology Promotion Committee of ICS

EAU Society of Female & Functional urology

BAUS section of Functional Urology

International Neuro-Urology Society

Guidelines panel of NLUTD - EAU

Co-Chair of Terminology Panel for Neurourology Working Group - ICS

Experience of participating in Working Groups

I have considerable experience of contributing to working groups both within ICS and other international organisations including EAU and BAUS.

As a co-chair of the WG for Terminology in Neuro-urology I have helped update the document in a timely fashion.

I am a member of the WG to update the Terminology of Male LUTS and have made significant contribution to the group.

As a member of European Guidelines panel of EAU, I have a track record of contributing to a number of projects reviewing evidence and publishing on findings, working in teams.

I have helped draft patient information leaflets as member of BAUS section of Functional Urology.

Publications

I have more than 75 publications in peer reviewed journals and more than 10 book chapters along with a number of invited articles. Some latest are:

Long-term effectiveness and complication rates of bladder augmentation in patients with neurogenic bladder dysfunction: A systematic review. Hoen L', Ecclestone H, Blok BF, Karsenty G, Phé V, Bossier R, Groen J, Castro-Diaz D, Del Popolo G, Musco S, Pannek J, Kessler TM, Gross T, Schneider MP, **Hamid R**. *Neurourol Urodyn*. 2017 Feb 7

Continent catheterizable tubes/stomas in adult neuro-urological patients: A systematic review. Phé V, Boissier R, Blok BF, Del Popolo G, Musco S, Castro-Diaz D, Padilla Fernández B, Groen J, **Hamid R**, 't Hoen L, Ecclestone H, Kessler TM, Gross T, Schneider MP, Pannek J, Karsenty G. *Neurourol Urodyn*. 2017 Jan 31.

Does the Goh classification predict the outcome of vesico-vaginal fistula repair in the developed world? Beardmore-Gray A, Pakzad M, **Hamid R**, Ockrim J, Greenwell T. *Int Urogynecol J*. 2017 Jun;28(6):937-940

Female urethral stricture: a contemporary series. Spilotros M, Malde S, Solomon E, Pakzad M, **Hamid R**, Ockrim JL, Greenwell TJ. *World J Urol*. 2017 Jun;35(6):991-995.

Literature Review: Double-Barrelled Wet Colostomy (One Stoma) versus Ileal Conduit with Colostomy (Two Stomas). Gan J, **Hamid R**. *Urol Int*. 2017;98(3):249-254.

Urethral diverticulectomy with Martius labial fat pad interposition improves symptom resolution and reduces recurrence. Malde S, Sihra N, Naaseri S, Spilotros M, Solomon E, Pakzad M, **Hamid R**, Ockrim JL, Greenwell TJ. *BJU Int*. 2017 Jan;119(1):158-163

The uses and outcomes of the Martius fat pad in female urology. Malde S, Spilotros M, Wilson A, Pakzad M, **Hamid R**, Shah J, Greenwell T. *World J Urol*. 2017 Mar;35:473-478
